

Welcome to our hospitals:

**A guide to visiting
in our neonatal department**

Visitors' Code

This document can be provided in different languages and formats. For more information please contact:

Patient Information Officer
QMC
C Floor, South Block
Tel: 0115 924 9924 ext. 67184

We know how important the presence of relatives and friends is to our babies and parents/carers. Nottingham University Hospitals NHS Trust promotes person-centred visiting to ensure babies, parents and carers feel supported and their loved ones included. We know you will understand that babies and parents/carers need time for rest and privacy, just as they do at home. They also need time to receive care and treatment from a range of healthcare staff. Please be sensitive to the needs of all patients and look after yourself. Come and go as you and your relative or friend wishes during visiting.

Visiting times and arrangements for families and friends:

2pm – 4pm

6pm – 9pm

We are flexible. If a parent wishes to have someone with them at other times, or if our hours don't fit with work hours or caring responsibilities, let us know and arrangements will be made.

We aim to foster an environment of respect, politeness and helpfulness between staff, patients and visitors. This helps to ensure the best outcomes and experience for everyone. Please promote healthy visiting and read following information

Protect

Babies can easily pick up infections, and so can visitors.

Please follow these simple steps:

- If you have a heavy cold, or flu, or have had diarrhoea and/or vomiting in the last two days, please don't visit
- Wash your hands with the gel provided as you enter and leave. It's always okay to ask staff if they have cleaned their hands before they touch a patient
- Sit on chairs provided
- Don't touch drips, needles, catheters, wounds, dressings, monitors etc.
- No fresh flowers – sorry, the water in vases can carry germs
- Use visitor toilets only. These are off the ward, please ask for directions
- Only children age 12 years and above may visit (and must be accompanied by an adult)

Safety

- Parents/carers will receive updates and will share news with others as they feel comfortable
- Poorly babies welcome quietness; please silence phones and keep noise to a minimum
- Don't take photos or videos of babies, parents/carers, visitors or staff or comment on social media about other babies, parents/carers, visitors or staff without consent
- Avoid distracting or interrupting staff who are checking and giving medicines and other treatments
- If you have concerns about any form of safety within the hospital, or don't feel you have been listened to, please ask to speak to the Ward Manager, Matron, Deputy Chief Nurse or contact our PALS team on 0800 1830204 or PALS@nuh.nhs.uk This includes concerns about cleanliness, safeguarding, standards of care and treatment

We are a Smokefree Hospital

- We ask patients, visitors and staff not to smoke anywhere within the hospital buildings or grounds
- The use of e-cigarettes is allowed outdoors but they must not be used in any hospital buildings
- We offer advice, help and support to our patients to stop smoking permanently or while they are in hospital (our on-site pharmacies can also help)

Respect

Patients need energy, privacy, time and space to receive care, treatment and rehabilitation from a range of healthcare staff:

- We ask visitors to be sensitive to the needs of neighbouring families
- Avoid overwhelming patients and the space; one to two visitors at a time works well
- Be understanding if staff ask you to step away or leave the ward for the benefit of any patient. Sometimes patients have tests and treatments both on the ward and in other hospital departments
- We have a zero tolerance policy towards all forms of abuse and violence

Assist

Here are some ways you can help and support your relative or friend:

- Check if your relative or friend needs a rest
- If a baby is approaching end of their life, we will support you. Ask the nurses supporting care of the baby about support that you may be able to access

Refresh

Visiting can be tiring; please look after yourself.

- Stay for shorter or longer periods of time. It's okay to take a break if you would like to
- Eat and drink regularly – there are several cafes in our hospitals
- Get some fresh air, relaxation and sleep.

Feedback

We value and appreciate honest feedback during and after your relative or friend's stay. Ward staff can show you how to give this, or visit www.nuh.nhs.uk/share-your-feedback.

Feedback

We appreciate and encourage feedback. If you need advice or are concerned about any aspect of care or treatment please speak to a member of staff or contact the Patient Advice and Liaison Service (PALS):
